

Outlier Detection on Financial RDF Data

Mentor: Christiane Engels

Group: Berivan Ekmez, Zuhair Almhithawi, Nayef Roqaya

04.05.2016

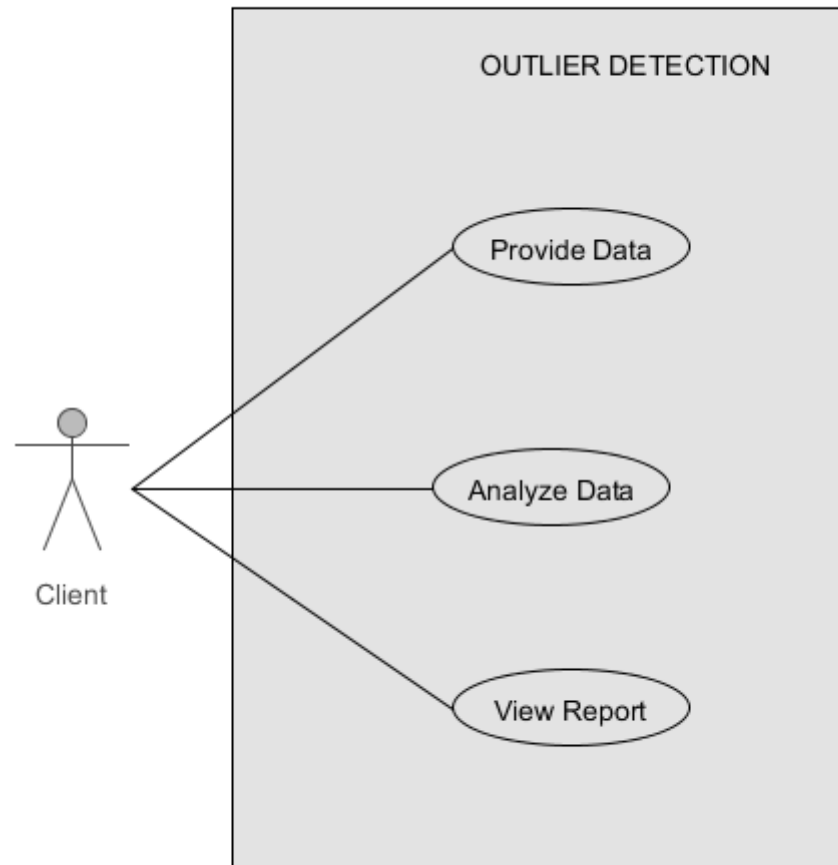

Introduction

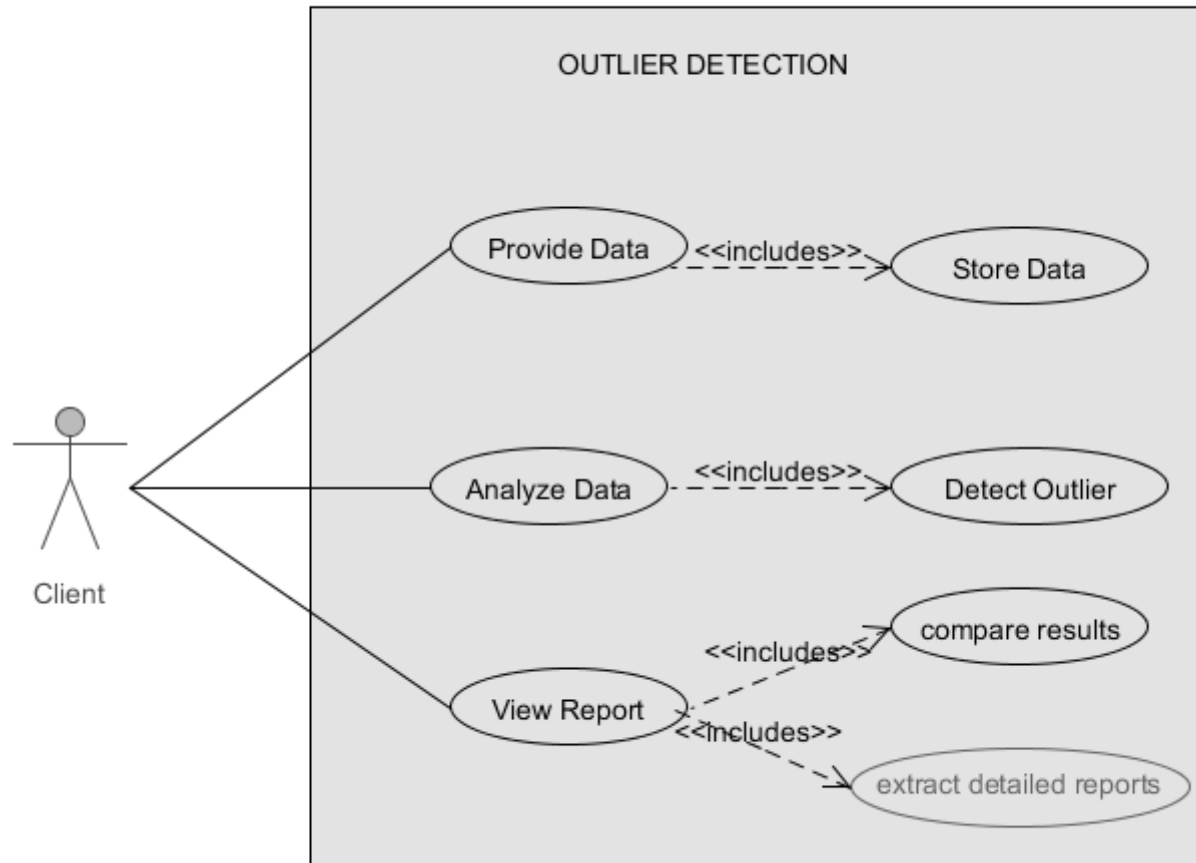

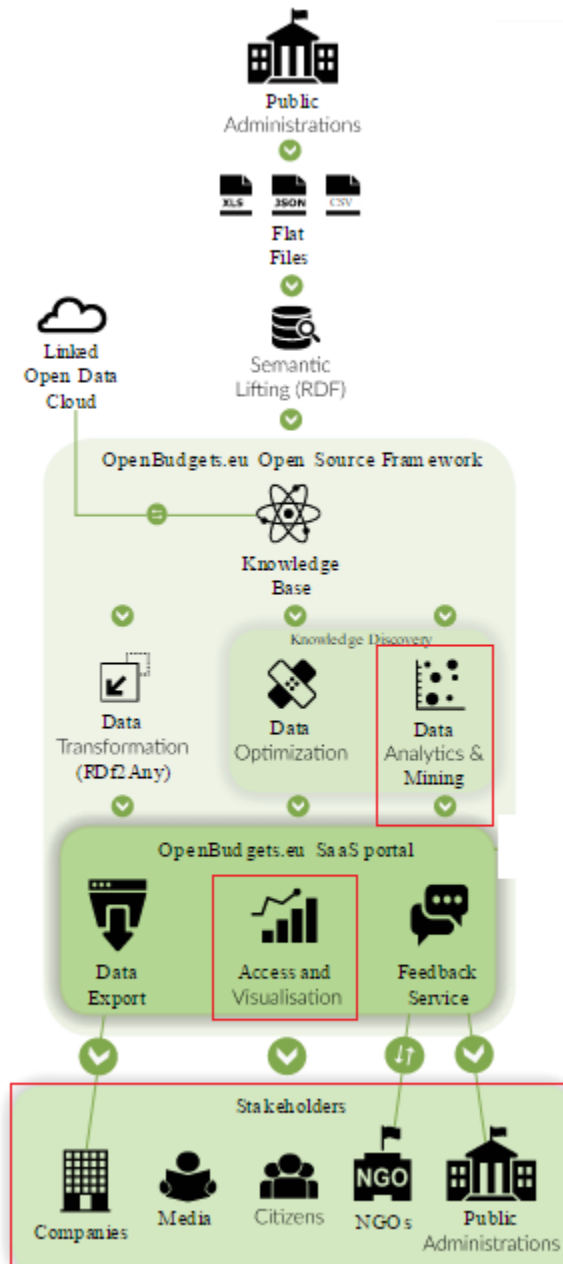

Objectives:

To give the user more insight into the financial data.

- finding unusual values, i.e. **outliers** or **anomalies**
 - :
 - errors in the data
 - irregular behavior (corruption, fraud, . . .)
 - regions of special interest that e.g. require more subsidies
